SECTION 1: INTRODUCTION

1. PREFACE

Ref: ISBAO 10.1.1

- A. The Environmental Manual contains the policies, procedures, and instructions relevant to Environmental Management for Dreamline Aviation ground and flight operations.
- B. This manual is not intended to be the final authority on all national and local environmental laws and requirements. Prior to operating at environmentally conscious airports, pilots and dispatchers will contact their trip handling provider to obtain the most up-to-date environmental restrictions applicable to the intended flight operation.

2. DEFINITIONS

- A. Throughout this manual, “the Company” will be defined as Dreamline Aviation, LLC.
- B. **ICAO** – International Civil Aviation Organization
- C. **ICAO ANNEX 16 Volume I** – ICAO document regulating Aircraft Noise
- D. **ICAO ANNEX 16 Volume II** – ICAO document regulating Aircraft Emissions
- E. **APU** – Auxiliary Power Unit
- F. **FBO** – Fixed Base Operator
- G. **EPA** – Environmental Protection Agency
- H. **ETS** – Emissions Trading Scheme

3. MANUAL DISTRIBUTION

A copy of this manual is furnished to appropriate areas and/or persons of responsibility within the Company.

4. MANUAL REVISION

Each manual holder will be responsible for keeping his/her manual up to date as revisions are furnished.
